Bangalore India

Skills

- Test automation
- Automation framework
- WebdriverIO
- Playwright
- API testing
- Regression testing
- JavaScript
- Page object model(POM)
- GitHub
- CI/CD
- Agile practices
- Effort estimation
- JIRA
- Bug Reporting
- Secure coding
- Problem solving
- Test Planning
- Test Case Design
- Requirement Analysis

Education And Training

12/2020

Master of Science:

Computer Science

Barathiar university

Coimbatore

08/2018

Bachelor of Science:

Computer science

Barathiar University

Coimbatore

Certifications & Licenses

Software Testing (NPTEL)

Postman API Fundamentals
Student Expert

Nayana Sajeev

Summary

Detail-oriented Test Engineer with 3+ years of experience designing and developing robust UI and API automation frameworks using Playwright and WebdriverIO. Proficient in integrating automated test suites into CI/CD pipelines with GitHub Actions to enable reliable continuous delivery in Agile environments. Skilled in defining effective test strategies, improving test coverage, and mentoring junior team members to strengthen overall QA practices.

Experience

Testing Mavens - Test Engineer

Kochi, India

02/2024 - Current

- Designed and implemented a scalable UI automation framework using Playwright and JavaScript, improving test execution efficiency.
- Led automation efforts for KPMG project, ensuring timely delivery of high-quality releases.
- Integrated automated test suites into CI/CD pipelines using GitHub Actions and Jenkins, enabling continuous testing and faster feedback cycles.
- Developed end-to-end and cross-browser test scenarios to improve overall test coverage.
- Conducted regression and smoke testing to validate system stability after releases.
- Facilitated code quality reviews and enforced automation best practices, reducing flaky tests by **30%**.
- Presented business requirement analysis and automation roadmaps to stakeholders to support data-driven decisions.
- Mentored junior QA engineers on automation framework usage and testing standards.

Testing Mavens - Associate Test Engineer

Kochi, India

09/2022 - 01/2024

- Built and maintained a robust UI automation framework using WebdriverIO, Jasmine, and JavaScript.
- Automated key user workflows, reducing manual testing effort and accelerating release cycles.
- Executed API testing using Postman to validate REST API responses and JSON data accuracy.

Playwright JS Automation Testing from Scratch

- Implemented data-driven testing for Excel and PDF validation using dynamic data extraction.
- Authored detailed test cases, test scenarios, and test strategies aligned with project requirements.
- Monitored and maintained Jenkins CI/CD pipelines to ensure reliable automated test execution.
- Collaborated in Agile/Scrum ceremonies to integrate testing early in the development lifecycle.
- Improved automation stability and enhanced software delivery quality for the Zipari project.

Testing Mavens - QA Intern

Kochi, India

09/2022 - 11/2022

- Completed training sessions to enhance technical skills for software testing.
- Conducted compatibility tests across multiple browsers, operating systems, and devices
- Performed manual testing on web-based applications for functionality, usability and performance.
- Worked with Agile and Scrum methodologies to accomplish project milestones and meet demanding timelines.
- Reviewed product specifications and offered actionable feedback to improve testing processes.
